

Name: _____ Date: _____ TOC#: _____

Cell Key

Structure	Function	Material Used in Model	Why Material Used?
Cell Membrane	Regulates what gets in and out of the cell	Sides of the container	Given by teacher to keep the cytoplasm in the cell; we can remove cell from this container and the cell membrane is flexible not rigid.
Cytoplasm	Jelly-like substance which all organelles sit	Jell-o	
Nucleus			
Ribosomes			
Mitochondria (double membrane)			
Vacuole			
Endoplasmic Reticulum
