

Pick Three: Micro-organisms Project

For our unit on Viruses, Bacteria, Protista, and Fungi we will have a project. Students will complete three of the nine choices. Projects are chosen similar to a tic-tac-toe board. Students can choose three in a row: vertically, diagonally, or horizontally. Information is included on the Pick Three Board, Rubric, and wiki site. Feel free to ask if you have any questions.

During this unit your homework will be completing the project. Several days your homework grade will be taken from completing a piece of the below timeline. If you miss a deadline, you will lose points on your homework grade. If the final project is late, you will lose points on the project grade.

This project is to give you an opportunity to apply knowledge, analyze data, synthesize ideas, and evaluate decisions. This is all critical and creative thinking skills. I am excited to see how you rise to the challenge. Please give me your best and choose topics that interest you.

Homework / Timeline

Date	Task	Homework Stamp/ Parent Signature
Wednesday, February 8	Project information given out	NOT A HOMEWORK ASSIGNMENT
Friday, February 10	Check in #1: Decide on your three (highlight the 3 boxes' edges)	
Wednesday, February 15	Turn in Pick One	
Friday , February 17	Check in #2: Where are you?	
Tuesday, February 21	Turn in Second Pick	
Monday, February 27	Turn in Third Pick	NOT A HOMEWORK ASSIGNMENT

*Parents can sign and date if the student is not ready to turn in the pick at this date. Points will not be taken off homework if there is a signature. Students can turn in picks as they are completed. Picks can be turned in early. All projects are due by February 27.
