

# Weekly Challenge

Animals can be grouped or classified in many different ways. They can be grouped according to their skin coverings, their feeding habits, their body structures, and so on.

How many different groups or categories can you think of that would each include at least five of these animals? Name the animals that belong in each category.

kangaroo	toad	turtle	butterfly	elephant
trout	vulture	porcupine	rabbit	bear

Category 1: Animals that hunt for food during the day (diurnal)

kangaroo	turtle	rabbit	butterfly
elephant	vulture	bear	trout

Category 2: \_\_\_\_\_

Category 3: \_\_\_\_\_

Category 4: \_\_\_\_\_

Category 5: \_\_\_\_\_
